Subject: Pantex Night Note
Date: Thursday, October 6, 2022 9:04:10 AM

(b)(6)

Below is the Night Note for notification of an Unmanned Aircraft System (UAS).

Subject: Pantex – Unmanned Aircraft System (UAS) over/near Department of Energy property.

Executive Summary: On Wednesday October 5, 2022 a Q-Cleared employee reported observing a UAS above Department of Energy property.

Issue: A UAS was observed over the Property Protection Area of Pantex.

Context: On Wednesday, October 5, 2022 at approximately 1000 hours, an employee reported observing a UAS moving over the North west side of Pantex Property from Farm-to-Market (FM) Road 293. After the UAS traveled onto Pantex property from the north, it began moving southwest toward FM 683 approximately 120-150 feet above the ground. (b)(7)(E)

(b)(7)(E). No other reports were received from plant personnel. Both the Protective Force and the Carson County Sheriff's department were immediately notified, but found no activity or evidence of the UAS in the area. The reporting employee described the drone as being black in color and having four rotors with no other distinguishing marks. (b)(7)(E)

Significance: A UAS was observed over the Property Protection Area of Pantex.

Path Forward: (b)(7)(E)

This incident has been categorized as an A-Management Interest (AMI) per the Consolidated Nuclear Security Incidents of Security Concern Program Plan, E-SD-0005, Rev.4.

This document has been reviewed by a Pantex Plant DC/RO and has been determined to be UNCLASSIFIED and contains no UCNJ or PNO. This does not constitute clearance for Public Release.
